Subject: Gasco Draft Groundwater Work Plan
Date: 11/30/2005 06:29 PM

Carl,

I am checking in with you regarding the review status of the draft groundwater work plan. DEQ and a limited number of federal team partners met yesterday afternoon and discussed the draft plan. Based on these discussions, NW Natural should expect comments that approximately double the field effort.

EPA was unable to participate because the project team is focused on finalizing the Round 3 data gaps memo for the LWG this week. Before I send comments, I need to check in with EPA which I expect to be able to do early next week.

I am out of the office until Monday. Please feel free to check in with me then if you have any questions or Rod Struck in the interim.

Regards,

Matt McClincy
